**\*Update - Craven County Confirmed COVID-19 Cases  
 Current as of 06/19/20, 4:00 pm**

Craven County has 302 confirmed COVID-19 cases as of 4:00 p.m. on June 19, 2020. The Craven County Health Department received confirmation of 13 new cases late today. Of the newest cases, 12 of those are due to direct contact with a previously confirmed positive case. Out of the 302 confirmed positive cases, 192 of those individuals have recovered, are doing well, and are out of isolation. The recovered cases completed the necessary isolation requirement and have been free of COVID-19 symptoms for at least 72 hours. Of the 302 cases, eight have been related to out of state travel, 46 are from community transmission, 244 are a direct contact with a previously confirmed positive case, and four are unknown at this time. There have been six deaths related to COVID-19. Five of the active COVID-19 cases are currently hospitalized.

A sixth Craven County resident died from complications related to the Novel Coronavirus (COVID-19) on June 19, 2020. The individual had several underlying health conditions. The death was reported to the Craven County Health Department on June 19, 2020. To protect the family's privacy, no further information about the individual will be released.

Craven County citizens are encouraged to use reputable sources of information to learn more about COVID-19 cases in Craven County and North Carolina. Reputable sources of information include the Craven County Health Department and NC Department of Health and Human Services (NCDHHS) websites.

When using the NCDHHS COVID-19 site to stay up to date, please keep in mind that county case numbers may change once residency is verified. Therefore, the total number on the county map may differ from the number of Craven County Cases.

Total Confirmed Cases Craven County	Active Cases Craven County	Recovered Craven County	Deaths Craven County	Currently Hospitalized Craven County
<b>302</b>	<b>104</b>	<b>192</b>	<b>6</b>	<b>5</b>

Craven County will continue to track and post the number of laboratory-confirmed COVID-19 cases; however, it is important to recognize there are many people with COVID-19 who will not be included in daily counts of laboratory-confirmed cases, including:

- People who had minimal or no symptoms and were not tested.
- People who had symptoms but did not seek medical care.
- People who sought medical care but were not tested.
- People with COVID-19 in whom the virus was not detected by testing.

The number of laboratory-confirmed cases will increasingly provide a limited picture of the spread of infections in Craven County as COVID-19 becomes more widespread and the number of infected people who are not included in the daily counts of laboratory-confirmed cases increases.
