1.0 INTRODUCTION

Title VI of the 1964 Civil Rights Act, 42 U.S.C. 2000d provides that: "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." The broader application of nondiscrimination law is found in other statutes, executive orders, and regulations, which provide additional protections based on age, sex, religion, and disability, including the 1987 Civil Rights Restoration Act, which extended nondiscrimination coverage to all programs and activities of federal-aid recipients, subrecipients, and contractors, including those that are not federally-funded (see [Appendix A – Applicable Nondiscrimination Authorities](#)).

CARTS is a recipient of Federal financial assistance from the North Carolina Department of Transportation (NCDOT) and the United States Department of Transportation (USDOT), receiving Federal Transit Administration (FTA) funds through the NCDOT. As the primary recipient of USDOT funds in North Carolina, the NCDOT's comprehensive Title VI Nondiscrimination Program includes compliance oversight and technical assistance responsibilities towards its subrecipients and those subrecipients must use federal and state funds in a nondiscriminatory manner.

CARTS establishes this Title VI Nondiscrimination Plan for the purpose of complying with Title VI of the Civil Rights Act of 1964, as required by FTA Circular 4702.1B, and related requirements outlined under Group 01.D, "Nondiscrimination Assurance," of the FTA Certifications and Assurances. This document details the nondiscrimination program, policies, and practices administered by this organization, and will be updated periodically to incorporate changes and additional responsibilities as they are made.

2.0 DESCRIPTION OF PROGRAMS AND SERVICES

2.1 PROGRAM(S) AND SERVICES ADMINISTERED

The first route begins service at 7:00 a.m., and pulls into the parking lot to be out of service at 3:45 p.m. The second route begins service at 8:00 a.m., and pulls into the parking lot to be out of service at 5:00 p.m. The bi-directional loops have approximately 90-100 minute headways, but the routes cross paths throughout that time, at approximately 30-40 minute intervals. The fare for the fixed route bus service is \$1.00. The fare for a disabled passenger is \$.50. Demand response service is provided throughout Craven, Jones, and Pamlico Counties. Demand response services have a 30 minute window, allowing fifteen minutes both before and after the scheduled pick up times.

2. **CARTS cannot investigate Title VI complaints filed against itself**, but can investigate ADA complaints against itself. CARTS will consult with the NCDOT External Civil Rights Section to determine the acceptability and jurisdiction of all complaints received. (Note: If NCDOT has jurisdiction, the External Civil Rights Section will be responsible for the remainder of this process. CARTS will record the transfer of responsibility in its complaints log).
3. Additional information will be requested if the complaint is incomplete. The complainant will be provided 15 business days to submit any requested information and the signed Consent Release form. Failure to do so may be considered good cause for a determination of no investigative merit.
4. Upon receipt of the requested information and determination of jurisdiction, CARTS will notify the complainant and respondent of whether the complaint has sufficient merit to warrant investigation.
5. If the complaint is investigated, the notification shall state the grounds of CARTS' jurisdiction, while informing the parties that their full cooperation will be required in gathering additional information and assisting the investigator.
6. If the complaint does not warrant investigation, the notification to the complainant shall specifically state the reason for the decision.

8.7 POPULATION LOCATIONS

Federal-aid recipients are required to know the characteristics and locations of populations they serve, particularly by race/ethnicity, poverty and limited English proficiency. This can be accomplished through maps that overlay boundaries and demographic features on specific communities.

9.0 TITLE VI EQUITY ANALYSES (AND ENVIRONMENTAL JUSTICE ASSESSMENTS)

As required under FTA C 4702.1B and 4703.1, Title VI equity and environmental justice (EJ) analyses will be conducted whenever we plan to construct (or modify) a facility, such as a vehicle storage facility, maintenance facility, operation center, etc., when there will be an increase in fares, or when there will be a major service reduction. These studies will be conducted to see if the change could result in either a disparate impact based on race, color or national origin (Title VI) or a disproportionately high and adverse impact to minority and/or low-income populations (EJ). Thus, they will look at various alternatives before selecting a site for the facility. Project-specific demographic data will be collected on potentially affected communities and their involvement in associated decision-making activities will be documented. Specific studies will be made available to oversight agencies during compliance reviews or to evidence our due diligence should a complaint be filed in relation to the location and effect of a proposed facility or fare increases. Project-related equity and EJ studies will remain on file indefinitely.

10.0 PUBLIC INVOLVEMENT

10.1 INTRODUCTION

Effective public involvement is a key element in addressing Title VI in decision-making. Recipients engaged in planning and other decision-making activities must have a documented public participation process that provides adequate notice of public participation activities, and early and continuous opportunities for public review and comment at key decision points. Underlying these efforts is our commitment to determining the most effective outreach methods for a given project or population.

This **Public Participation Plan** describes how CARTS will disseminate vital agency information and engage the public by seeking out and considering the needs and input of interested parties and those traditionally underserved by existing transportation systems, such as minority and limited English proficient persons, who may face challenges accessing programs and other services. General public involvement practices will include:

- Scheduling meetings at times and locations that are convenient and accessible for minority and LEP communities.
- Employing different meeting sizes and formats.
- Coordinating with community- and faith-based organizations, educational institutions, and other entities to implement public engagement strategies that reach out specifically to members of affected minority and/or LEP communities.
- Providing opportunities for public participation through means other than written communication, such as personal interviews or use of audio or video recording devices to capture oral comments.
- Considering radio, television, or newspaper ads on stations and in publications that serve LEP populations. Outreach to LEP persons could also include audio programming available on podcasts.

10.2 PUBLIC NOTIFICATION

Passengers and other interested persons will be informed of their rights under Title VI and related authorities with regard to our program. The primary means of achieving this will be posting and disseminating the policy statement and notice as stipulated in Sections 3.0 and 4.0, respectively. Additional measures may include openly stating our obligations and the public's rights at meetings, placing flyers at places frequented by targeted populations, and an equal opportunity tag-on at the end of radio announcements. The method of notification will be determined through an initial screening of the area.

10.3 DISSEMINATION OF INFORMATION

Information on Title VI and other programs will be crafted and disseminated to employees, contractors and subrecipients, stakeholders, and the general public. Public dissemination efforts may vary depending on factors present, but will generally include: posting public statements setting forth our nondiscrimination policy in eye-catching designs and locations; placing brochures in public places, such as government offices, transit facilities, and libraries; having nondiscrimination language within contracts; including nondiscrimination notices in meeting announcements and handouts; and displaying our Notice of Nondiscrimination at all our public meetings.

At a minimum, nondiscrimination information will be disseminated on our website and on posters in conspicuous areas at our office(s). Project-related information and our most current Title VI-related information will be maintained online.

10.4 MEETINGS AND OUTREACH

There is no one-size-fits-all approach to public involvement. A variety of comprehensive and targeted public participation methods will be used to facilitate meaningful public involvement. Methods for engaging stakeholders and target audiences, including traditionally underserved and excluded populations (i.e., minorities, youth, low-income, the disabled, etc.) will include the following:

Public Relations and Outreach

Public relations and outreach (PRO) strategies aim to conduct well-planned, inclusive and meaningful public participation events that foster good relations and mutual trust through shared decision-making with the communities we serve.

- We will seek out and facilitate the involvement of those potentially affected.
- Public events will aim to be collaborative, fun, and educational for all, rather than confrontational and prescriptive.
- Media plans will typically involve multiple channels of communication like mailings, radio, TV, and newspaper ads.
- Abstract objectives will be avoided in meeting announcements. Specific "attention-grabbing" reasons to attend will be used, such as "Help us figure out how to relieve congestion on [corridor name]" or "How much does it cost CARTS? Let us know on [date]."
- Efforts will be made to show how the input of participants can, or did, influence final decisions.
- We will do our best to form decision-making committees that look like and relate to the populations we serve.
- We will seek out and identify community contacts and partner with local community- and faith-based organizations that can represent, and help us disseminate information to, target constituencies.
- Demographic data will be requested during public meetings, surveys, and from community contacts and committee members.

Public Meetings

"Public meeting" refers to any meeting open to the public, such as hearings, charrettes, open house and board meetings.

- Public meetings will be conducted at times, locations, and facilities that are convenient and accessible.
- Meeting materials will be available in a variety of predetermined formats to serve diverse audiences.
- An assortment of advertising means may be employed to inform the community of public meetings.
- Assistance to persons with disabilities or limited English proficiency will be provided, as required.

Small Group Meetings

A small group meeting is a targeted measure where a meeting is held with a specific group, usually at their request or consent. These are often closed meetings, as they will typically occur on private property at the owner's request.

- If it is determined that a targeted group has not been afforded adequate opportunities to participate, the group will be contacted to inquire about possible participation methods, including a group meeting with them individually.
- Unless unusual circumstances or safety concerns exist, hold the meeting at a location of the target group's choosing.
- Share facilitation duties or relinquish them to members of the target group.
- Small group discussion formats may be integrated into larger group public meetings and workshops. When this occurs, the smaller groups will be as diverse as the participants in the room.

Community Surveying

- Opinion surveys will occasionally be used to obtain input from targeted groups or the general public on their transportation needs, the quality or costs of our services, and feedback on our public outreach efforts.
- Surveys may be conducted via telephone, door-to-door canvassing, at community fairs, by placing drop boxes in ideal locations, or with assistance from other local agencies like social services.

10.5 LIMITED ENGLISH PROFICIENCY

Limited English Proficient (LEP) persons refers to persons for whom English is not their primary language who have a limited ability to read, write, speak, or understand English. It includes people who reported to the U.S. Census that they speak English less than very well, not well, or not at all.

In an effort to comply with DOT's LEP policy guidance and Executive Order 13166, this section of our public participation plan outlines the steps we will take to ensure meaningful access to all benefits, services, information, and other important portions of our programs and activities by individuals who are limited-English proficient. Accordingly, a four factor analysis was conducted to determine the specific language services appropriate to provide, and to whom, to inform language assistance planning and determine if our communication with LEP persons is effective.

Four Factor Analysis

This Four Factor Analysis is an individualized assessment that balances the following four factors:

- (1) The number or proportion of LEP persons eligible to be served or likely to be encountered by a program, activity, or service of the recipient or grantee;
- (2) The frequency with which LEP individuals come in contact with the program;
- (3) The nature and importance of the program, activity, or service provided by the recipient to people's lives; and
- (4) The resources available to the recipient and costs.

Factor #1: *The number or proportion of LEP persons eligible to be served or likely to be encountered by the program, activity, or service of the recipient.*

| LANGUAGE SPOKEN AT HOME | Estimate | Margin of Error | Percent of Population | Margin of Error |
|--------------------------------------|----------|-----------------|-----------------------|-----------------|
| Total (population 5 years and over): | 119,132 | +/- 115 | 100% | (X) |
| Speak only English | 109,882 | +/- 880 | 91.2% | +/- 0.7% |
| Spanish or Spanish Creole: | 5,833 | +/- 651 | 3.9% | +/- 0.5% |
| Speak English "very well" | 3,605 | +/- 552 | 2.1% | +/- 0.4% |
| Speak English less than "very well" | 2,228 | +/- 509 | 1.8% | +/- 0.4% |

CARTS works with the local refugee agency to explain CARTS in the refugee's native language. This usually involves making a presentation which includes opportunity for the individuals to board and explore a transit vehicle. CARTS may also works with other agencies to provide a travel training experience.

Factor #2: *The frequency with which LEP individuals come in contact with the program.*

CARTS has been monitoring the frequency with which LEP individuals have come in contact with CARTS. Hispanic or Latino riders make use of the both the fixed route and demand response services. Information for passengers is available through the CARTS webpage, <https://www.cravencountync.gov/165/Transportation-CARTS>.

LEP individuals are represented on the CARTS Transportation Advisory Board (TAB). While not a policy making body, the TAB makes recommendations to the governing board.

All grant application public hearing notices are at a minimum published in the New Bern Sun-Journal, on the Craven County website <https://www.cravencountync.gov/>.

Factor #3: *The nature and importance of the program, activity, or service provided by the recipient to people's lives.*

CARTS provides service to all major employment, medical facilities, education, human services agencies, and recreation sites within the Craven, Jones, and Pamlico counties either by fixed route or demand response service.

Factor #4: *The resources available to the recipient and costs.*

CARTS has numerous resources that could be used to provide LEP assistance to customers. This includes identifying CARTS staff, volunteers, community college, and county staff. Cost for these services has been free.

LANGUAGE ASSISTANCE PLAN

As a result of the above four factor analysis, a Language Assistance Plan (LAP) was not required. However, reasonable attempts will be made to accommodate any persons encountered who require written translation or oral interpretation services.

Language Assistance Measures

The following general language assistance measures are reasonable and achievable for our organization at this time:

- Translating public notices posted in the local paper and at stations, stops, and in vehicles into the languages of all language groups that met the threshold in Factor 1.
- Making a concerted effort to inform LEP persons of available language assistance via staff, broadcast media, relationship-building with organizations, and our website.
- Posting vital bulletin board information and disseminating community surveys in various languages.
- Providing translation and interpretive services when appropriate (upon request or predetermined) at meetings.
- Determining how best to take public involvement to LEP groups directly, including through small group meetings.
- Utilizing or hiring staff who speak a language other than English and can provide competent language assistance. Note: We will not ask community-based organizations to provide, or serve as, interpreters at our meetings. Relying upon CBOs in that capacity could raise ethics concerns. If a CBO decides (on its own) to translate any materials for its constituents, or bring interpreters it trusts to our meetings, we cannot object. That is their right.
- Using language identification flashcards to determine appropriate services.
- Establishing a process to obtain feedback on our language assistance measures.

Written Translation and Oral Interpretation

Vital documents will be translated for each eligible LEP language group in our service area that constitutes 5% or 1,000, whichever is less, of the population of persons eligible to be served or likely to be encountered. Translated materials will be placed online and in appropriate public (or private) places accessible to LEP persons. The safe harbor provisions apply to the translation of written documents only, and do not affect the requirement to provide meaningful access to LEP individuals through competent oral interpreters where oral language services are needed and are reasonable. When appropriate, translation of any document will be communicated orally in the appropriate language.

In the event that the 5% trigger is reached for a LEP language group that is fewer than 50 persons, written notice will be provided in the primary language of that group of the right to receive competent oral interpretation of vital written materials, free of cost. The most effective method of notice, which could be an ad in the local newspaper or other publication, a radio commercial, or door hangers, will be determined in consideration of the circumstances on the ground and in coordination with language access resource contacts (LARCs).

Staff Support for Language Assistance

- Agency staff will be provided a list of referral resources that can assist LEP persons with written translation and oral interpretation, including the Title VI Officer and any outside consultant contracted to provide language services. This list will be updated as needed to remain current.
- All main offices and vehicles will have on hand a supply of language assistance flashcards and materials translated into the languages of the largest LEP language groups. When encountered by an LEP person, staff (including drivers) should present the individual with a flashcard and let them choose the language. Do not assume you know their preferred language. Drivers are permitted to seek volunteer assistance from other passengers before contacting a referral resource. Document the encounter and report it to the Title VI Coordinator.
- Training: All employees will be instructed on our procedures for providing timely and reasonable assistance to LEP persons. New employee orientation will also explain these procedures to new hires. Staff routinely encountering LEP persons by telephone or in person will receive annual refresher training. All other employees will be reminded of LEP through annual Title VI program acknowledgements (Section 5.0) and basic Title VI trainings (Section 11.0).

Project-Specific LEP Outreach

A project-specific four factor analysis will be conducted for any project being planned or scheduled outreach event limited to a specific geographical area delineated for that activity (i.e., the project study area or outreach area, respectively). Language assistance will be provided in accordance with the measures already outlined, including translating written materials for each LEP language group that is 5% or 1,000, whichever is less, of the project or outreach area population.

Monitoring and Updating the LAP

Monitoring of daily interactions with LEP persons will be continuous, thus assistance techniques may be refined at any time. This LAP will be periodically reviewed to determine if our language assistance measures and staff training are working. Resource availability and feedback from agency staff and the general public will be factors in the evaluation and any proposed updates. Among other practices, this process will include working with LEP community contacts to determine if our employees are responding appropriately to requests made with limited English or in languages other than English, and observing how agency staff responds to requests, including observing drivers or surveying riders. To the best of our ability, we will attempt to never eliminate a successful existing LEP service. Significant LEP program revisions will be approved or adopted by our board or designated official and dated accordingly. LEP data and procedures will be reviewed and updated at least once every three years.

11.0 STAFF TRAINING

All employees will receive basic Title VI training at least once every three years. New hires will receive this training prior to providing revenue service. Basic training will cover all sections of this Plan and our overall Title VI obligations. Staff may receive specialized training on the application of Title VI in their specific work areas. Those who routinely encounter the public, such as office personnel, call center staff, and vehicle drivers, will receive annual refresher training. Trainings will be provided or organized by the Title VI Coordinator (or designee), and will often coincide with updates to our nondiscrimination policies and procedures. Records of staff trainings will remain on file for at least three years (and in personnel files), and will include agendas, sign-in sheets, copies of calendars, and any certificates issued.

Strategies for Representative Committees

We will seek minority participation and strive for committees that are representative of our constituencies by:

- Openly asking public and small group meeting participants if they would be interested in serving on a committee.
- Seeking referrals from local organizations and key community contacts that serve or represent minorities.
- Exploring different types of committees, such as ad hoc minority- or youth-only Citizen Advisory Committees.
- Outreach efforts and responses (or lack thereof from those asked to serve or refer others) will be documented.

13.0 RECORD-KEEPING AND REPORTS

Records will be kept to document compliance with the requirements of the Title VI Program. Unless otherwise specified, Title VI-related records shall be retained indefinitely. These records will be made available for inspection by authorized

officials of the NCDOT and/or FTA. As a subrecipient of FTA funds through NCDOT, we are required to submit a Title VI Program update to NCDOT every three years, the next of which is due in **2020**. Reports on Title VI-related activities and progress to address findings identified in civil rights compliance reviews and assessments may also be submitted on an as-requested basis. It will occasionally be necessary to update this program plan and its component parts (e.g., complaints, Public Involvement, and LEP), applicable documents, and responsible officials. Updates will be submitted to NCDOT for review and approval.

In addition to other items throughout this plan, records and reports due at the time of compliance reviews or investigations will include:

14.0 TRANSIT PROVIDERS

14.1 SERVICE STANDARDS

Vehicle load

CARTS operates two (2) bi-directional loops, utilizing three (3) 22' Light Transit Vehicles (1 spare). Each vehicle has a capacity of two (2) wheelchair and twelve (12) ambulatory passengers (no standees).

Vehicle headway

The first route begins service at 7:00am, and pulls into the parking lot to be out of service at 3:45 p.m. The second route begins service at 8:00 a.m., and pulls into the parking lot to be out of service at 5:00 p.m. The bi-directional loops have approximately 90-100 minute headways, but the routes cross paths throughout that time, at approximately 30-40 minute intervals.

On time performance

The intended standard will be zero (0) minutes early at stops and no more than five (5) minutes late.

Service availability

Both loops cover the same neighborhoods, shopping, and medical stops. There are occasional capacity issues, which are typically the first week or so of each semester of classes for Craven Community college, and only on the first run of the day.

14.2 SERVICE POLICIES

Transit Amenities for each mode

CARTS does not have transit amenities (shelters, benches, etc.) in place.

Vehicle Assignment for each mode

The assignment of vehicles is not applicable to the service mode offered by at CARTS, in that both loops cover the same areas. Vehicle assignment will be applicable when they system develops further.
