**Craven County Confirmed COVID-19 Cases  
 Current as of 10/13/20, 11:00 am**

Craven County has 1,939 confirmed COVID-19 cases as of 11:00 a.m. on October 13, 2020. Out of the 1,939 confirmed positive cases, 1,581 of those individuals have recovered, are doing well, and are out of isolation. The recovered cases completed the necessary isolation requirement and have been free of COVID-19 symptoms for at least 24 hours. Of the 1,939 cases, 22 have been related to out of state travel, 376 are from community transmission, 1,325 are a direct contact with a previously confirmed positive case, 85 are still being investigated, and 131 are unknown. There have been 50 deaths related to COVID-19. Twenty-three of the active COVID-19 cases are currently hospitalized.

Two additional Craven County residents have died from complications related to the Novel Coronavirus (COVID-19). The forty-ninth Craven County resident died on October 12, 2020. The individual was tested for COVID-19 on October 5, 2020 and resulted positive on October 6, 2020. The death was reported to the Craven County Health Department on October 12, 2020. The fiftieth Craven County resident died on October 12, 2020. The individual was tested on September 22, 2020 and resulted positive on September 24, 2020. The death was reported to the Craven County Health Department on October 13, 2020. Both individuals had underlying health conditions. To protect the privacy of each individual's family, no further information about the individuals will be released.

Craven County citizens are encouraged to use reputable sources of information to learn more about COVID-19 cases in Craven County and North Carolina. Reputable sources of information include the Craven County Health Department and NC Department of Health and Human Services (NCDHHS) websites.

<b>Total Confirmed Cases Craven County</b>	<b>Active Cases Craven County</b>	<b>Recovered Craven County</b>	<b>Deaths Craven County</b>	<b>Currently Hospitalized Craven County *of active cases</b>
<b>1,939</b>	<b>308</b>	<b>1,581</b>	<b>50</b>	<b>23</b>

The Craven County Health Department works with state, commercial, and private labs to track the number of confirmed positive COVID-19 cases in Craven County. Health care providers determine which lab they send their COVID-19 tests to. Craven County will continue to track and post the number of laboratory-confirmed COVID-19 cases; however, it is important to recognize there are many people with COVID-19 who will not be included in daily counts of laboratory-confirmed cases, including:

- People who had minimal or no symptoms and were not tested.
- People who had symptoms but did not seek medical care.
- People who sought medical care but were not tested.
- People with COVID-19 in whom the virus was not detected by testing.

The number of laboratory-confirmed cases will increasingly provide a limited picture of the spread of infections in Craven County as COVID-19 becomes more widespread and the number of infected people who are not included in the daily counts of laboratory-confirmed cases increases.
