**Craven County Confirmed COVID-19 Cases**  
**Current as of 10/26/20, 11:30 am**

Craven County has 2,230 confirmed COVID-19 cases as of 11:30 a.m. on October 26, 2020. Of the newest cases, 44 were confirmed on October 23, 2020, two on October 24, 2020, four on October 25, 2020, and 11 today. Out of the 2,230 confirmed positive cases, 1,942 of those individuals have recovered, are doing well, and are out of isolation. The recovered cases completed the necessary isolation requirement and have been free of COVID-19 symptoms for at least 24 hours. Of the 2,230 cases, 25 have been related to out of state travel, 450 are from community transmission, 1,475 are a direct contact with a previously confirmed positive case, 88 are still being investigated, and 192 are unknown. There have been 60 deaths related to COVID-19. Nine of the active COVID-19 cases are currently hospitalized.

Three additional Craven County residents have died from complications related to the Novel Coronavirus (COVID-19). The fifty-eighth Craven County resident died on October 23, 2020. The individual was tested for COVID-19 on October 20, 2020 and resulted positive the same day. The fifty-ninth Craven County resident died on October 25, 2020. The individual was tested for COVID-19 on October 23, 2020 and resulted positive the same day. The sixtieth Craven County resident died on October 25, 2020. The individual was tested for COVID-19 on October 23, 2020 and resulted positive the same day. All three deaths were reported to the Craven County Health Department on October 26, 2020. Each individual had underlying health conditions. To protect the privacy of each individual's family, no further information about the individuals will be released.

Craven County citizens are encouraged to use reputable sources of information to learn more about COVID-19 cases in Craven County and North Carolina. Reputable sources of information include the Craven County Health Department and NC Department of Health and Human Services (NCDHHS) websites.

<b>2,230</b>	<b>228</b>	<b>1,942</b>	<b>60</b>	<b>9</b>

The Craven County Health Department works with state, commercial, and private labs to track the number of confirmed positive COVID-19 cases in Craven County. Health care providers determine which lab they send their COVID-19 tests to. Craven County will continue to track and post the number of laboratory-confirmed COVID-19 cases; however, it is important to recognize there are many people with COVID-19 who will not be included in daily counts of laboratory-confirmed cases, including:

- People who had minimal or no symptoms and were not tested.
- People who had symptoms but did not seek medical care.
- People who sought medical care but were not tested.
- People with COVID-19 in whom the virus was not detected by testing.

The number of laboratory-confirmed cases will increasingly provide a limited picture of the spread of infections in Craven County as COVID-19 becomes more widespread and the number of infected people who are not included in the daily counts of laboratory-confirmed cases increases.
